

QUANTUM is an artfully crafted formulation of enzyme-rich plant essences and microscopic sea vegetables. If you desire more energy and a higher level of enthusiasm for life, then **Quantium** is our most popular place to start.

QUANTUM's ingredients are carefully handled at low temperatures to save enzyme and phytonutrient vitality by means of incredible new gentler technologies.

You will find this to be the most peacefully energizing nutritional formula you have ever experienced.

QUANTUM = ENZYMES = LIFE! Enzymes are complex bioenergetic protein molecules uniquely formed by tiny charges of electric-life-energy. Enzymes are produced only by life processes. The blueprints and mechanisms for creating enzymes are contained in the life-plan of living cells. Science has not been able to duplicate this intricate process, so is often reluctant to acknowledge the creative life force of enzyme-live foods. Life is not possible without enzymes and enzymes are not possible without life. This is the Creator's undeniable signature upon the design and creation of life.

Your body's production of enzymes declines as you age. Your life energy level is a sort of enzymatic bank account. Many persons on typically processed (low enzyme) diets

are making mostly withdrawals — and very few deposits — until their life-energy (health) is overdrawn. **Quantium** is created to enhance the deposit ledger of your life-energy account.

CONVENIENT: Begin with 1/2 tsp increasing gradually to 3 (or more) rounded tsp per day. **Quantium** may be enjoyed at breakfast or at 2 or 3 separate times during the day.

Option 1: Most popular — 18oz of pure water plus 1 rounded tsp of **Quantium** in a 20oz shaker bottle. Enjoy 2 or 3 of these "SuperFood Waters" throughout the day in place of nutritionally empty coffee or sodas. Shake between sips.

Option 2: Mix each spoonful with at least 6 ounces of your favorite fruit or vegetable juice.

Option 3: In a 20oz shaker bottle — 1/3 OJ + 1/3 Cran Ras + 1/3 Pure Water — add 2 or 3 rounded teaspoons of **Quantium** — and shake.

Option 4: For a wonderful smoothie, blend 3 rounded spoons of **Quantium** with 1 banana, 1/2 cup ice, 2 cups orange juice and 2 tablespoons of frozen 100% fruit juice concentrate of your choice.

Storage: Ideally enjoyed by Best Potency Date and within 3 months after opening. **Quantium** powder travels well at room temp. Protect from light, moisture, oxygen, heat and time — the freezer door is ideal for preserving **Quantium's** Enzymes, Flora, Q10 & other nutrients.

Made In USA. These statements have not been evaluated by the FDA. **Quantium** is intended solely for supplying phytonutrients to work with your body's natural processes, and not for any medicinal purpose. Freshness packets & spoon enclosed. Sold by weight.

Superb Tasting New Formula — December 2008 —

An Instant Favorite — “The Best Calming-Energy Ever!”

Quantium Makes Any Good Water Into Life-Revitalizing & Fat-Managing Biological Water

Quantium Life-Energy

by Jevari Oberon

This is the ideal high-enzyme, high-phytonutrient SuperFood formula for many people to begin and continue.

You simply mix Quantium powder with juice, diluted juice, or good water. Quantium has a surprisingly wonderful taste — quite a lot nicer than any other green drink. Most people prefer taking one spoon at a time in a 16 oz bottle of water. Just shake it up. You can have 1, 2, 3, or even more of these a day — *instead of pop or coffee*.

• Quantium Is Refreshing

Quantium quenches your body’s “thirst” for phyto (plant) nutrients which it simply cannot find in the typical American diet — nor even in some of the better foods or supplements that people eat. *Your cells are really going to love this stuff!*

Quantium is impressively broad-spectrum in its phytonutrients, and compared to Iridesca, it actually has more of certain specific ones of these for which most folk’s cells are desperately crying out at the beginning of starting SuperFoods.

• Quantium Is Cleansing

Some cleansing programs are simply not effective, while other cleansing programs are too narrowly focused or aggressive. They are less supportive of the overall cleansing process and may stir up more toxins than your body has nutritional support to dispense with them.

Quantium is just right. Its cleansing abilities, while being profound, are gentle and are respectful of your body and all of its intricacies. And Quantium works at all levels and with all organs and systems.

• Quantium Is Energy

Life-Energy Is Enzymes & Enzymes Are Life. It is these life-energy-wrapped protein molecules, called enzymes, which are the batteries and molecular magic wands storing your life-energy and implementing all of your life processes. Without these organizing and directing operatives of life, we would just become loose unruly associations of water, fats and minerals. The more of these enzymes we have, the more we can manifest our God-given design — *our gifts, talents, purpose, and longevity*.

• Please do not confuse this life energy — *enzyme-energy* — with mere caloric energy, nor with the artificial rush triggered by caffeine or other stimulants.

The Quantium-type life-energy of which we speak is the gold-standard directing force for your cells. Children who are running, happily screaming and vigorously playing are virtual busy bee hives of these live nutrient enzymes. As an older person, upping your enzyme life-energy is like drinking *liquid youth*. In short order, you will see and feel a difference — and so will those around you.

You would have to eat 60 pounds of raw broccoli just to get the 60mg of Coenzyme Q₁₀ in every serving — *only 3 spoons — of Quantium*. And that is just one of hundreds of enzymes/coenzymes/proenzymes/enzyme-synergists, and phytonutrients in Quantium.

There are literally hundreds of phytonutrients of this special life-enzyme category in each sip of Quantium.

***Remember, your body
deserves the best!***
